

FREQUENTLY ASKED QUESTIONS.

Is there a train nearby?

Yes, Dover priory train station drops you off very closely to the town center. It is only 1 hour away from St pancreas in London.

Will do you work in or out of splints?

In short, both, but only at the recommendation of the surgical team.

Will you liaise with relevant medical professionals?

Yes, we can be in constant contact with them and update them with their progress.

Will there be breaks in sessions?

Yes but this is always on an individual basis. The younger they are the more frequent breaks are required. Sometimes we let them play with the toys during therapy as part of a reward for their hard work. It is recommended that you bring along their normal drink of choice, after all, this is hard work!
